## REPORT OF HEALTH OFFICER

---

To the Selectmen of the Town of Clinton.  
Gentlemen:—

Whereas the law requires me to make an annual report of my doings for the past year to the State Board of Health, the County Health Officer and to the town of Clinton, the following is respectfully submitted.

There have been many cases of whooping cough this year of which many could have been avoided had proper steps been taken to report same to your Health Officer and the children been kept from school and off the streets. Unfortunately too often the cases are not reported until many days after the beginning of the disease during which time infection occurs. An attempt has been made to compel those using the dumping ground for rubbish at the junction of Prospect Hill Road with North High street to level off refuse as fast as dumped and to refrain from dumping animal or vegetable matter there. This spot has become an eye sore and foul smelling to those using these roads.

Infection of the rules, as posted by the Selectmen, if reported to me will be prosecuted.

The schools have been found in good condition.

D. A. FOX, M. D., Health Officer
